

I feel the NAB should have no say in what XM can and cannot provide it's listeners with. As an XM customer, I have chosen to pay for the services XM supplies me with, and therefore the NAB or any other group (or their lobbyists) should not have any control over what I listen to or what XM airs. These are important freedom of speech issues that need to remain intact and need to be enforced. So in closing, I respectfully urge the FCC to reject the NAB's petition 04-160, and help preserve our civil rights.
